Customer Reviews

I'm so glad I bought this book/cd because I love fairies. The graphics are black and white, however, that shouldn't distract you from buying it. If you want to use the pictures for arts and crafts such as stenciling and rubber stamping--there are enough of them with simple to trace details. Also, the images could be used for coloring book projects for your kids. I will use my projector to size an image and trace it on the wall and then paint it in. There are playful images surrounded by nature--leaves, flowers, animals--mostly birds.

I have a number of clipart books and this one is the best I've got. I carve gourds and the designs in here really lend themselves to what I do.

Not only great designs but an excellent adult coloring book as well!

Fast delivery good product.
