Customer Reviews

First, let me note that major parts of this coloring book are reprints in whole or in part from other coloring books. Namely, there all sixteen designs from “Floral Mandalas Stained Glass Coloring Book” • (2011), eight designs from “3-D Mystic Mandalas Coloring Book” • (2011) as well as seven new designs which have not been published before. As I don’t own either of the other two books and generally don’t purchase the stained glass books at all as I don’t care for the vellum pages, these designs are all new to me. I enjoy many coloring books by Marty Noble and this is no different in that sense. What is different and something that I like all the more, is that the designs are a little less intricate than my others. They are still detailed and fun coloring challenges but compared

to the two recent books I have by this artist (â œCollage Artâ • and â œCelestial Mandalasâ •), the designs in this book are something I can finish in much less time. I really like using my various markers on designs with black backgrounds. I like the translucent feel that marker ink adds. It is really just a personal preference because I don't care for how the black looks next to the way I use my coloring pencils (with a very light touch) and I generally use gel pens as an accent rather than a whole designs (except for postcards where I use them extensively.) I'm sure that others can and do create beautiful work with their coloring pencils on this style of book. For my first project, I chose a mixture of both alcohol and water-based markers. This is what I found when going through this coloring book: 31 Mandala Designs with black backgrounds Printed on one side of page Page is smooth and perforated.
