Customer Reviews

When I ordered this I expected a few great pictures and a lot I didn't really like. I LOVE every single one of them. Also I thought there would be a lot of activities, and that the actual coloring pages would be few and far between, not true. There are 3 mazes ...fun. and 1 word find. All the rest are coloring pages. And they are beautiful, unique and detailed. There are mostly unicorns, but Also pegasus, fairies and a dragon.

I love this book and it is one of my grand children s favorites. There are 42 beautiful illustrations of Unicorns, and winged horses to color with crayons or colored pencils. The 42 amazing illustrations

are printed front and back of each page. There are also 4 activity pages included in this book. The art work is amazing!

That's just my bias, the printing of this book is fine and the designs attractive. The price was good and the artwork well done. I just would have liked to see more pegasi, maybe some hippocampi, and fewer unicorns.

I bought adult coloring books previously that were top notch and I got hooked. THIS one however seems to be more for children and really isn't well drawn for adults to color. The paper was sub standard, glad I didn't start with this one.

I bought this book and didn't expect it to be the way it was I figured it would have childish pictures. What I got was a book full of beautiful pictures done and made to look like actual horses. The author did a beautiful job making this book realistic and fun to color I spend hours in my book. I have so far bought 3 books from her and plan on buying more soon! All her books are done nicely and with a lot of effort put into them. They are double sided pictures though that does make it hard to pick a picture out to color and hang if I choose so that is the only fault I found with the books they arrived well packaged in perfect shape! I just wished the pictures were single sided. But still a wonderful buy!

This is a great coloring book for all ages. It look as though the author has spent many hours studying Horses. This is a great addition to the 1st one, that I bought previously.

From the very second my niece saw this coloring book, she fell in love with it and worked in it immediately. Recommended for all who love their tween niece like I do.

Sturdy paper covered with beautiful drawings of horses, unicorns, and all manner of magical, horse-like creatures. It's a beautiful colouring book!
