Customer Reviews

Oh IÃ¢Â™ve always wanted to write a song. But I just didnÃ¢Â™t have a clue on how to startÃ¢Â|so I ended up not writing anything at all. To be a songwriter is not my ambition, but to write something and make some melody out of it is just a diversion that I love to do for myself. This book has coached me in so many ways. I love that the elements of songwriting are well discussed here which will encourage and educate you more in writing songs. And I believe music lovers like me will enjoy this book.

Sean has has laid out some good foundations for any budding music artist or someone who just wants to express themselves by writing a song. He has gone into details on how the song is written and how you don't just have to rush the book, you can go over if the first draft is not the best.he goes into how to start, chorus, melodies and much more in regards to song writing.

This was a quick and insightful read. I felt like I was reading a vague article but it's great as an introduction to book.
