## Customer Reviews

"Little Blue Truck's Halloween" is a great addition to the series and a wonderful come back from last year's disappointing "Little Blue Truck's Beep-Along Book". In the new book, the author Alice Schertle's great rhymes are back and the illustrations by Jill McElmurry are cute and fun once again. When I pre-ordered my copy of the book, there wasn't a product description, so I was happily surprised when I discovered it has flaps which you lift to see what is underneath. The concept is that each of our favorite animals are in the book once again and most are in costume. You lift the flap to see which animal is "hidden" under their mask. I really appreciate that it helps re-enforce animal names while a child has fun with guessing and enjoying the cute costumes. The back page is an entire flip-over page and reveals the biggest costumed entity as well. Don't want to ruin the big surprise but don't be surprised is there are a few "Beep, beep, beeps" to be read. I purchased one copy thinking it would be enough for both of my grandchildren but, as it turns out, my grandson likes it so well, he wants it kept by the rocking chair in his room at my house. I'll

happily purchase a second copy of this (as well as the first two books and the Christmas book in the series) for my granddaughter as well to enjoy once she is old enough. I'll include a copy of photos of my grandson's favorite pages.

First off, the Little Blue series is one of the few in our household that never gets old. Not to mention, our three year old is an odd duck in love with everything Halloween. So Little Blue enjoying All Hallows' Eve was a no-brainer order for us. This book has pesky flaps, but they're solid so I feel like they'll last longer than usual 6 read lifespan of normal lift-the-flap board books. The story reads well out-loud, too.

I have a toddler who is very into the LBT series. We have all of them. This book is so cute- cuter than little blue truck leads the way. Doesn't quite beat the original, but it does have lift the flaps, which are always a big hit.

Little Blue Truck is one of our son's favorites so we were excited to see another one in the series. This one is especially fun for him because it has flaps to lift up. It's hard to beat the original, but this comes close.

I don't think any book will ever be as good as the original Little Blue Truck, but this does manage to get close. In addition to the typical rhyming in these books, they have now added flaps for lifting on each page. After the disappointing Little Blue Truck Leads the Way, I was a little nervous about this one. I figured it might be a huge cash grab going off the popularity of the original. While the second book sure seems like that, this one went back to its roots and did not disappoint. All the farm animals from the original have returned and this time they are in costumes. Each page is entertaining and illustrated beautifully and will give your child very pleased.

The original Little Blue Truck is my 18-month-old's favorite book. After being pretty disappointed in the sequels so far, I am so glad I decided to take a chance and order the Halloween version. Baby loves the familiar characters and is currently obsessed with flip books, and the rhymes are clever enough that it doesn't make her dad and I miserable to read it again and again and again!

This book doesn't disappoint. It's wonderful. It has all the lyrical rhyming of other other books loved by my son. The plot is simple and clean. Little Blue Truck and friends are headed to a costume

party. Each page is a peek-a-boo game with costumed animals. You lift the flap to unmask the animal.

I thoroughly enjoy all the Little Blue Truck books and this one is no disappointment. The predictability and flow of the story make it enjoyable for children who are early readers or cannot read, as they can still participate in the repetitive parts of the book. The illustrations are detailed and the lift flaps seem pretty sturdy (but with enough effort of course could still be ripped).
