Customer Reviews

I saw this book in a bookstore and immediately felt in love with it. I do a lot of photography and recently I had the opportunity to take pictures for an architect. This book immediately caught my attention. I'm really impressed with the beauty of the houses and the quality of the pictures. I would recommend it as a reference to architects and photographers.

It has a lot of good examples on this so common yet so unique architectural topic which is designing houses. I loved the fact that it is divided by design styles. The negative point is that there are some information missing. The book's cover house, as an example, only has its groundplan blueprint. But overall, it is a good book. 4/5

I spent several enjoyable hours looking at the large, nicely-presented photos in this book. It shows a range of contemporary houses from all over -- some attractive, some not, but mostly interesting.

A huge selection of truly unique modern homes! Most homes here (if not all) are built in 2000's. This book is big! I love it!
