I have many music books with accompaniment recordings. This is my new favorite! The kids in my music class love the songs. I love the CD so I can focus on the kids not the piano (the tempos are good for my purposes and the quality was great). The arrangements are really great, only Les Poissons sounded a little off (as opposed to some other books I have like "more Disney Solos for Kids" where all the songs sound weird). This is a great book to have if you teach boys as well as girls, since many other books focus on the girls solos and romantic songs. Just the selections from Mary Poppins make this worth the price (cheaper on)!

This is great! The CD-rom contains the piano accompaniments to many great Disney songs, but the tempi can be adjusted on the computer, thus enabling the student to be flexible. The ranges are specifically matched to the child's unchanged voice, so I'm not trying to explain why she can't hit that note until puberty occurs. Kids have NO patience! Some of the songs are slightly shortened from the movie versions ("The Bare Necessities" comes to mind), but they are still excellent for the kids to use for many purposes in the studio and in concert. I recommend this book to any kid who

wants to sing at the school talent show and any teacher who needs good music for younger kids.

It's ok. I was hoping the CD came with the vocals, but it's just the music. My daughter is still learning the words to the songs so I had to go out and buy another CD of music with the vocals. If your in a play and having to do some of the tunes, it's for you!

There seems to be no end to the Disney Collections! I got this book for my daughter for a vocal competition that required this edition. There are a lot of the same songs that are in four of the other Disney books she has but the Mary Poppins songs are a nice addition. I'm not thrilled about the price for the collection but I had to have it and had the best price.

Although it does not advertise it has child singers on the CD, this should be standard for children's songbooks. I would recommend ordering alternate Disney songbooks that include a child singer on the CD to assist with learning the songs.
