This is for piano/guitar/vocal. It's not big-note or simplified piano. The guitar claim arises from there being chord diagrams (not merely names) at the appropriate points. The lyrics are accurate and the whole thing is official. Neither are the songs shortened. But you're probably going to rue buying this for the following reasons: 1. This collection includes about 120 popular Beatles songs, but the same publisher offers a two-volume version of what can be reasonably be called the band's complete catalog: The Beatles Complete - Volume 1 - Piano/Vocal/Guitar Artist Songbook and The Beatles Complete - Volume 2 - Piano/Vocal/Guitar Artist Songbook. I know for sure these two are offered together as a boxed set, but I cannot locate the link on . Some songs that you'd think would be in this "highlights anthology" aren't here; instead you have to buy the full monty. The transcriptions in those volumes are note-for-note the same as the ones in the volume you're seeing on this page, I can confirm. 2. The book is thick, very thick. I believe I saw it offered in a spiral-bound volume somewhere on ; if you do not buy that one, you'll have to spiral-bind it yourself because the binding

is poor and will crack the first time you open it flat. In fact, I had to have it spiral-bound into three smaller volumes since this anthology was so thick that it couldn't fit on the sheet-holder of my keyboard without obtruding over the keys!3. This thing needs to be redone, guys. I mean really.
