Customer Reviews

This is a truly wonderful book. I needn't say too much because the internet details and extracts are first class and say it all. You will want to buy this book if you see the internet text and images. The only thing I would say is that the contextual detail has suffered as a consequence of the lavish set of photographs and stylish narrative and captions. It is also a little depressing to note the delapidation of some of the historic buildings. All in all, highly recommended!

A beautiful and stunning book.

Superb!buy it!
