## Customer Reviews

This coloring book will make a great gift for the sarcastic and artistic dads in your life. This coloring book arrived safely in a padded manilla envelope. I love the look and feel of the cover, it's a little thicker than the average coloring book cover and has a cool matte finish. I have included pictures of some of my favorite illustrations, but they were all great. There are about forty pages of one-sided illustrations. I like that they are one-sided because once they are colored in, you can rip them out and do what you please with them (give it to a friend, frame it, put it on the fridge, or in one of the kid's rooms.) Highly recommend this product!

I love my adult coloring books, and my husband likes to kindly tease me about my adorable owls, birds, floral designs, etc, so when I came across this colouring book, I knew I needed to get it for my hubs so he can have his own coloring fun. I surprised him today with it as a gift and he absolutely loves it! There are some fun, sarcastic, and hilarious pages in this book. If you're looking for a book that's completely non-offensive, this might not be the book for you. A good sense of humor will come in handy for someone coloring these pages. Not each and every page will apply to everyone's situation, but there is plenty of laughs to go around. I'd include some photos of the pages, but so many people have covered that, and I'd like to leave a bit of surprise left. Aside from the awesomeness of the pictures, the book is great quality. Not a solid cover, but a good and sturdy one, not flimsy. Enough to keep the book in good shape as long as it's taken care of properly. I have not one negative thing to say, so it's an easy 5 stars. I did receive this item at a discount in exchange for my unbiased review. These words and opinions are of my own and based solely on my personal experience with this book, with some input from my husband of course. Great for all the dads out there!

Oh my goodness, this book definitely hits the nail on the head for all Dads out there! It has brought back so many memories watching my husband with our kids. The pictures are funny, well drawn and illustrated, and are sure to make you smile if not laugh. My husband says this is the best

coloring book I own now and I have many. The variety in the pictures is amazing, you have more than just the funny, making fun of situations pictures, there are those pictures in this book that capture the sweet moments too. Like Dad lifting his bay in the air for example. If you have a special guy in your life that enjoys coloring as much as you do, this book is for him. Each picture is on one side of the page only, the paper quality is very good, but I do suggest if using markers or gel pens to place a piece of paper in between to prevent bleed through. I almost had that happen. The pages are not perforated so sharing may be a little more difficult but not impossible. I received a copy of this book for free to sample and give an honest review.

This is a very fun coloring book for Dad.. Naturally I am not dad but I had a lot of fun coloring in this book. I did a lot of laughing and oh how it brought back some memories from when my kiddo was little. This dad life coloring book hits the nail on the head with dads and their childrens. This coloring book is filled with awesome pictures that you can bring to life with your own imagination with color. The pages in this book are nice and thick and you do not have to worry about your inks bleeding through onto the next page. This adult coloring book is about the size of an 8x10 picture frame, maybe a tad bigger. I personally like these bigger books so I can see the pictures more clear. This one is the best size for me. This book comes to 86 pages so you will have plenty to color. I received this adult coloring book free in exchange for my honest review

I purchased this for my husband for father's day (his first one). He loves this coloring book and we got a kick out of it. Not only are the pictures fun coloring pieces, but the quotes are SPOT on when it comes to parenting! We really love this and can't wait to get more for teachers, christmas, and etc. I HIGHLY recommend this to any dad as a gift or just "because". Warning: MUST have a GREAT sense of humor and love sarcasm!!!! :) Disclosure: I received this product at a discount in exchange for an honest review. I am an avid shopper and base my own purchases on the reviews of other shoppers. I am happy to provide an honest review to help other shoppers make an educated decision on their purchase. In no way does my own purchase influence my review whether positive or negative!

Dad Life A Manly Adult Coloring Book is full of hilarious pages to color. I got this for my husband who has always gave me grief over coloring and i kept telling him it helps me relax but he just thought i was crazy, until now!! I got him this along with gel pens, colored pencils, markers and crayons and now hes a coloring machine! Haha guess who is laughing at who now!? He tells me its

so relaxing after he gets home from work and after stressing over his job it gives his mind something else to focus on. My husband is also ADHD and can't walk away from something he started because he has the focus part of ADHD really bad and next thing i know he had 3 pages fully colored in 3 hours! I think all men should own this book!Disclaimer- i received this product at a discounted price in exchange for my honest review
