Happy Coloring: Easy Flowers - Coloring Book For Adults

Synopsis

This collection of beautiful flower designs will captivate and excite both beginner and intermediate adult colorists. The designs are rather easy to color while still being intricate enough to challenge your creativity and be enjoyable. The images are printed on the fronts of pages only, so you don't need to worry about bleed-through if you choose to use markers.

This is my third coloring book by Stefania Miro and I am enjoying this book as much as I did the first two. In this coloring book, she has drawn beautiful flowers but has simplified the coloring aspect of the designs. The flowers are very pretty but they are flowers rather than "doodled" flowers with small and intricate spaces. This makes it a great book to color when you don't have the time or patience to color in tiny spots. It is also a great coloring book for those who may have some challenges with fine motor skills or whose eyesight may not be up to the tiny parts of other coloring books. All of the designs stop well before the binding. The designs are printed on one side of thin white non-perforated paper that is typical for books published by CreateSpace. The binding is glued but there is plenty of room for you to cut a page out if you choose to do so. All of my markers bleed through and my gel pens either bleed through or leave a distinct shadow on the back of the page. My coloring pencils work well with the paper. I will use a piece of chipboard or heavy paper behind the page I am working on so I don't ruin the following page with leaking ink. While I could wish for thicker, perforated paper, it appears that this is the quality that comes from CreateSpace (which is

an company.) What I really like about the CreateSpace is it is a way that independent artists can get their work self-published. That way, I get a huge choice of design styles albeit with not the best paper. These are the coloring medium that I use for testing.
