# 1,000 Tangles, Patterns & Doodled Designs: Hundreds Of Tangles, Designs, Borders, Patterns And More To Inspire Your Creativity!

## Synopsis

Hundreds of designs, patterns, borders, doodles, and tangles to guide and inspire. 1,000 Tangles, Patterns & Doodled Designs combines hundreds of tangling, illustration, and doodling patterns and designs into one all-encompassing guidebook. Filled with inspirational designs, patterns, borders, flourishes, doodles, tangles, and more, this creative resource explores hundreds of ideas for tangling and doodling enthusiasts to learn and model. From basic tangles to stylized letters and numbers, the variety of patterns and designs seems virtually endless. Throughout the book, practical tips and step-by-step lessons help artists perfect their skills, while blank templates can be copied or scanned to use over and over again. A nonstop compendium of doodling tips and tangling techniques, 1,000 Tangles, Patterns & Doodled Designs is a complete resource for doodling enthusiasts and a tangler's dream come true.

## Customer Reviews

I am so disappointed. I eagerly preordered this in May because how could I resist the title??? It arrived today and the instant I opened it, I knew I had been terribly misled. This book is basically Walter Foster's other two zentangle books, *The Art of Zentangle* & *Tangled Up*, combined into one volume . . . with all of the step-outs removed! There are some new materials, but not enough to justify my purchase of this book. If you don't have either of the other two books and are looking for just finished pieces for inspiration, you might enjoy this. I am so bummed!!

This book is a waste of money. It doesn't have any new tangle patterns. I've seen all of them in

my other Zentangle books with much better presentation. It doesn't show how to make the patterns, just has lots of simplistic pictures of basic patterns with a few variations to some of them. The "inspiration" artwork is mostly geared for children and lacks the finesse of all the other Walter Foster books I've seen in my half-century lifetime. I waited two months for this book to be released and am very disappointed. The narrative (what little there is) doesn't provide any new useful information. The templates in the back could have come from a dollar store child's coloring book. In fact, such a coloring book would probably be better than this book's content. A waste of your hard earned dollars unless intended as a gift for a child 6-10 years old.

This book is fine if you understand clearly what you are purchasing. Those interested in learning the practice of Zentangle should seek out other references that actually give the breakouts for the tangles mentioned, as there is no instructional information provided. Better yet, they should seek out classes given by Certified Zentangle Teachers, which are easy to identify through the Zentangle website. However, if you are simply looking for ideas and inspiration as to how to combine various patterns/tangles, this would be a decent start. I'm going to keep the book in case it might prove useful at some point with my students, but I would say that if I had known in advance what the content would be like I would not necessarily have purchased it.

I preordered this awful book and was hoping it would live up to its title and contain 1000 step by step tangle patterns and doodle designs. It is just pictures of tangles and doodles. Many tangles I have seen on the internet. It like someone did a Google image search, divided the results up by topic and stuck the pictures in a book. Amazing enough there are no artist credits! The publisher should be ashamed of themselves.

So disappointed in this book. There are no "how to" instructions, just pictures. Additionally, so much of the book is a repeat of a different book that I already have. If you want a better book, I recommend "Tangled Up" by Penny Raile which is an excellent book. Lots of the same patterns, and ideas but also the "how to" instructions. I'll be sending this book back as it doesn't give me anything that makes me want to keep referring back to it.
