Tory Burch: In Color

Synopsis

Tory Burch sees the world in color, inspired by people, places, and ideas—all of which influence her brand, synonymous with print and color. In her first book, she explores what living in color means to her. The book is organized by color, each one brought to life through images of her own collections and travels; how she entertains; style icons; the works of artists, authors, and interior designers she admires; and the advice of business leaders—many of whom are interviewed within. The book also offers a glimpse into the more personal moments in Tory's life, such as family trips with her boys or the indelible ways in which her parents, Buddy and Reva Robinson, influenced her collection, company, and philosophy. The foreword is written by Anna Wintour, artistic director of Condé Nast and editor-in-chief of Vogue, and the cover features Damien Hirst's Beautiful Primal Urges Rug, © Damien Hirst and Science Ltd., all rights reserved / DACS, London / ARS, NY 2014. Courtesy of Other Criteria. 100% of the gross proceeds received by Tory Burch LLC from the sale of this book will benefit the Tory Burch Foundation.

Customer Reviews

I like books by and about designers. Lilly Pulitzer, Kate Spade, Tom Ford, Louis Vuitton... so I believed that this book by Tory Burch would follow suit. Yes, it's a beautiful book with rich, lovely photos. But Ms. Burch waxes poetic on every page about her fabulous parents (dad once dated Grace Kelley. Her parents took 6 week vacations every year) and plastered photos of her children all over the book. I was hoping it was less about the 'fabulous life of Tory' and more about her

vision, her work as a designer, and her daily inspirations outside of her unbelievably privileged life. Her "farm" where she grew up was a breath-taking mansion complete with designer swimming pools and intricately appointed gardens. Her father lined his jackets with Hermes scarves. She then moved to New York and lived in a lavish penthouse overlooking Central park. Why do I know this? Because the book is FILLED with items about HER. Materialistic items. Nothing of true substance. Not much about her designs or vision. Why still 3 stars? Because it's pretty to look at and isn;t that the whole point of fashion books anyway...?

I am taking Tory Burch's idea of living life in full color to heart! Her new book shares the story of the designer's inspiring career alongside amazing imagery--from bold artwork to beautiful poetry. This is not only the perfect gift for the holidays but also a fabulous coffee table book for my own house.

This was far more than the coffee table book I expected. I ordered the book months ago from Tory Burch because I am a self-admitted Tory-phile. I love her clothes, shoes and purses so much that I need a special Burch room in my house. She has such a sense of style and color for someone so young, and she is clearly an accomplished businesswoman. This fascinating book does contain many pictures, but it is also filled with narrative. What a interesting life Tory led. I knew she came from a Main Line family, but I had no idea who her parents are. Now I understand why she names her clothing. All the ballet shoes are named after her mother, a ballerina for years. For anyone who likes Tory Burch, I highly recommend this book. And what a great gift it would make!

Colorful book. Rather pretentious content celebrating the life of Tory Burch.

Tory's books is tasteful, gorgeous and an ode to inspiring colors and family. Even my husband couldn't keep his eyes off it!!

a MUST READ. Love the way this book was laid out. Huge shout out to the photographers and people who put it together!!!!

I was in a frantic mood trying to find something to put under the tree for my aunt and her two girls whom are all consumed with the fashion bug. I got several of these types of coffee table fashion books and they were the hit of Christmas. These are great gifts when you have no idea what to get.

What a fabulous book - very beautiful, a wonderfully inspiring story and some fun recipes - Tory shared herself in this book and I could feel it! The design inspiration was over the top! I'm gifting another to my daughter!
