I cannot get enough of this new adult coloring thing! The patterns in this book are wonderful. I've been using colored pencils, so I can't say anything regarding the ability of the paper to avoid markers bleeding through...but so far I love everything about it and find the whole experience to be very relaxing.I would (and have) highly recommended adult coloring and this book specifically to several friends.My only wish would be for the pages to be well perforated so that they could be easily removed from the book...it would make it much easier for those of us who are left handed to color if we could just pull the pages out and color without the binding getting in our way.

The patterns are basic and make it a bit boring compared to other books I have.

Love, love love these, great to do before bed and helps every day stress...

this book didn't really seem to help me relieve any stress so i replace it with a new book and realized that the designs in this book are not very stress relieving it have me more anxiety than anything.

Bought as a gift for my mom. Nice patterns and a fabulous price!

Great stress reliever for my college-daughter.

An excellent addition to my deck.

I found the only thing this coloring book gave me was stress. The designs and the broad use of heavy black lines are uncomfortable to color with they make colors seem less bright. My grandchildren don't even like this book and they are only 7 and 9. The triples never agree on anything and all three disliked this book and wouldn't even use it, now that's bad. I can't think of one good thing to say about it. The other books, Calm and Happy are great but not stress unless someone is looking for more stress.
