Beautiful, flowing, artistic mandalas in circular form, made up of geometric shapes, or flower shapes for school aged children, college students and adults. This book is amazing, there is something totally calming and relaxing about coloring mandalas and these are perfect in form, perfect in size, and perfect in details. The designs are made up of medium details, neither very tiny nor very large, they are just right for an afternoon project. This book is perfect for experimenting with color combinations or teaching children color concepts, I organize my Bic Mark it markers according to the color wheel , then let the children start with any color and just use the next one and so on. The mandalas look amazing when finished and the children are always excited about their finished

master pieces, also sometimes the back of the picture where the markers leach through are better than the front. I added some of the pictures from the book that I played with different colors on, used black on and left some white empty.1. 50 balanced artistic mandalas printed one per page (the back of each is blank) on medium weight, bright white paper.2. If you use some Gel pens and any marker they might leak through the page so place 2 pieces of scrap paper under the page you are coloring to prevent damaging the next image.3. I love using (Bic Mark it permanent markers, ultra fine, 36 count) in this book, sometimes I like the back of the page where the marker leaches through better than the front. I also use Fiskars Gel pens and Crayola twistable, Crayola Colored Pencils and Prisma colored pencils.

This is an excellent coloring book for all levels. The designs vary in difficulty from very simple to more intricate; great for holding your attention for long periods! All pages are printed one-sided but if using markers make sure to stick a scrap sheet of paper to prevent bleed through as you can easily get to the next page and accidentally ruin the next design.

This is a wonderful mandala colouring book. After much hunting for a colouring book of its kind, I settled on this one and am very pleased with my purchase. Great designs varying from very complex to slightly complex; just what I was looking for. If you are looking for a relaxing hobby, a meditative experience, a creative outlet, or a combination of all three, I highly recommend you pick up mandala colouring and give this book a try.

This book contains a very good series of designs and made a nice gift to a family friend who has a deep interest in mandalas and she enjoys working on them for relaxation. The paper stock is heavy enough to limit bleed-through and the designs are printed on one side only so they can be removed from the book for framing or display. The pages are not perforated and this would have been a big plus. I think this book would be good for a 16-year old and up. Along with the book I also included this Sakura 10-Piece Gelly Roll Assorted Color Medium Point Gel Ink Pen Set and they work really well on these designs.

This mandala coloring book is very nicely put together. There are flowers, lots of circles or highly geometrically diamond-like designs; sometimes both in one design. All have the special flavor of sought after designer Jenean Morrison.~ 50 mandala designs~ pages are single sided printed~ High quality printing resolution.~ some highly detailed~ some give room for adding your own

details~ most of the mandalas are about 7" across centered on the page~ a few pages have a smaller mandala repeated 9 to 12 times on the same page~ these look to be computer generated, so they are precisely drawn! I don't particularly like the Morrison color palate on the cover, but that is what is great about having our own coloring book. Lucky us, the creative possibilities of color and medium choices is endless. I find working with mandalas to be very meditative, relaxing and satisfying as the colors pop and the design begins to emerge according to my color choices and placement.

I'm a big fan of Jenean's quilting fabrics, so I was thrilled to see she has a line of coloring books!! This one does not disappoint. I like the variety of the complexity of the designs--some are very intricate, some simple. I have used both Bic Mark-it Ultra-fine markers (see my photos) and colored pencils. The markers do have some bleed-through, so be sure to put some scrap paper behind the page. I am very pleased with this book, and have order more of Jenean's books!

This book has 50 fifty one sided mandalas so it would be easier to try coloring with different markers, pens, pencils etc.. if that is what you would like to do. I am working my way through this book a bit slower, than I have some of the other mandala books I have had. As I has been a bit more of a personal challenge to decide what colors I want to color these mandalas. Deciding this though has made the process more relaxing and rewarding when I have finished.

LOVE this coloring book! The designs are beautiful and there is a good mix of simple to more intricate mandalas to color. It is my favorite mandala coloring book that I have!
