Customer Reviews

The photos had a detailed description of the pieces in the room and the designers. Good for training your eye in Scandinavian Modern design. Loved the open feel of many of the rooms & appreciation of natural surfaces. Very much what I remembered about traveling through Finland. Like the Shakers & Japanese, the outside influences the Scandinavian style. Highly recommend this book.

Purchased this book as a Christmas gift for a mid-century modern furniture dealer. He was thrilled with the contents and thought it would be great resource for his research library.
