Customer Reviews

I first stumbled across this calendar a few years ago and picked it up on a whim for my desk at work. I loved it so much I've purchased another on every year since and they never disappoint. Quality is good, and I like the little blurb with each one that tells a little about it and where it is located.

I bought 2012 treehoyses calendar last year and I have gotten so many compliments. It has many interesting treehouses and my imagination flies all over the world.

This is the best calendar series I've seen. I keep expecting them to run out of amazing treehouses to photograph, but I'm never disappointed by what I see. Someday I plan on living in one of my own, but for now I'll just buy the calendar and dream. I advise all my fellow low-budgeted treehouse enthusiasts to do the same.

The overall images are well shot from different angles and the calendar includes a secondary inset picture. I was a little disappointed on reading some of the background text that there wasn't more

depth.
