Well, about 4 pages are similar in style to the cover, the rest are crazy-intricate cityscapes, or sketches of cities. You can't really color a sketching. It seems like the editor just collected a bunch of stylistically unrelated line-drawings and called it a book.

Agree with Jenna. Book is very haphazard. Not sure where images came from but pretty certain was not originally a coloring book.

Haphazard, poorly done, incohesive, random and overall disappointment. Tiny little drawings stuck in the middle of a sea of white space.

I was kind of disappointed with the drawings in these. The lines were too close together in some of the drawings that I felt like why bother coloring it when it's mostly just black outlines of things. Some of the pages were fun (hot air balloons, sidewalk cafe), but I wasn't excited to color some of these pages. Clearer, distinct lines would have been better.

Lovely and relaxing. I bought these for my children as stocking stuffers. However they are so lovely and detailed that I've done a few pages as well and have really been enjoying myself. The price point is a bit higher than that I've seen at local stores with sales that are currently going on. But they are truly lovely and enjoyed by kids and adults alike.

I'm 22yo and these are so worth a buy! It makes a change not being sat in front of the tele in the evening to be sat on the sofa or the kitchen table surrounded by pencils. It's also surprisingly relaxing after a full day of work. What starts off as 'I'll colour this little bit' turns in to 'Ohhhh this bit next' 2 hours later!

Everything about this book is wonderful. The pictures are fun and engaging, and no matter what colors I choose, it always turns out beautifully. I'm not much of an artist, but this book makes me feel like one! Can't get enough of it!

I ordered this as a gift for someone for Christmas this year. She is a common stress free color-er. I previewed the book before wrapping it up and it is gorgeous! I might have to buy one for myself!
