Customer Reviews

I am thrilled with the quality of this coloring book! The pages are nice and thick so you can use either markers or pencils with it. Each page is backed in black. The papers are of a nice thickness for showcasing your completed works of art. The book is a nice size with 50 designs. The designs are

very nice. My son loves animals so he was absolutely thrilled with this book. He has sensory processing disorder and I have found the adult coloring books are perfect to help him calm himself down when the world is just too much. He spends hours coloring and making beautiful creations. This is such a lovely book for him! This would be a great gift for anyone from about 5 to 99. I know you'll be very happy with this coloring book!! I do my best to give you very helpful and honest reviews. If you have found this helpful, please click the "yes" button to give me feedback!! I wouldn't really consider the animals in this book to necessarily be "mandala" animals. If you are looking for animals drawn into circles, or any type of mandala circles, this is not the book for you. However, with that being said, this book is easily one of my favorite animal coloring books (and I have quite a few). The pictures in this book are so clear and they fill a lot of the page. I love just having the animal picture to color and not a huge background full of stuff to mess with. The pictures almost look like an animal "selfie" or a "face shot" for a job. LOL. The details on each animal are fun and unique through the book, each animal has a different type of feature detail. Most pictures have a nice mix of small details and slightly larger spaces to color. This book has duplicate pictures, so every picture in the book has a double, which is cool because if you mess up (I do, a lot) you get a re-try! The pages are single sided on a reasonable thickness paper (not computer paper but also not card stock) and the backsides of the pages are black. Overall this is a really great book!! I received this item at a discounted price in exchange for my honest and unbiased review.

PDF Ebook | 100% Approval | Fast Review | Adult Coloring Book | Kindle | Short Read | Best Deals | Free Shipping | Australia, Canada, United Kingdom | Fritzen Media This coloring book is beautiful! The pictures are very detailed and will allow your creativity to flow. The back side of the pages are blacked out to prevent mark bleed through if that is your choice of medium. The paper is thick and high quality so that you can showcase your work of art. Coloring is one of my favorite relaxing activities. I have always loved to color since I was a child and I have continued this great past time into my adult life. While in college I colored to relax and now I color to relax as well. I highly recommend this coloring book without reservation. Full Disclosure: I received this product for

I received this adult coloring book in a digital PDF format so that I could print only the pages that I wanted from my home printer and on my paper of choice. With that being said, I can not speak to the physical quality of the book itself (such as the binding, paper quality, etc). However, in reading the description of the physical book it is all the same designs but there are 2 copies of each design in the physical book whereas my digital copy only had 1 copy of each design. Some of the animals have a very "realistic" design style (such as the fish I colored and attached in the pictures below) but some of the animals are more cartoon styled. (I believe this is the trend with the mandala design). To my disappointment, the animals are not full page designs and in general lack any type of surrounding designs (trees, sky, patterns, etc) which results in large quantities of white space around the outside of the animals. The fish that I chose to color would be about the average size of the drawings but some were much smaller (like the deer with antlers image I attached below). I was also saddened to find that the lion design from the cover is not actually one of the animals in the book. Another item worth noting is that 4 of the animals come in the book with colored eyes (browns and oranges). Overall, fairly simple designs that are better for someone not looking to get overly tedious or wanting to spend all day on one image. This book would be great for starters or older children that are bored with the children's coloring books. I was offered this product at a discounted rate for my honest review.
