## Customer Reviews

I was disappointed in this book. There's very little content and lots and lots and lots of blank practice pages. I practice in my own journals and books. When I buy a lettering book I want lettering ideas and instruction. This is basically a blank book with a few very basic instructions - and I mean a VERY few. If you already own any other lettering books you already have these instructions. There's nothing new at all. Don't waste your money unless you're looking for a notebook.
