great book to learn the proper way of playing Clarinet works on your tone, fingerings and Ombishure, Students and Pros alike will enjoy this book

Well written book for beginning clarinetist. Was able to follow the instructions. Led me seamlessly

into the next phase. My wife who taught music for 40+ was also impressed with the lay out and methods.

Just what my daughter needed for Band class and it cost less than purchasing through the school.

As promised, delivered quickly.

Bought this for my wife. I highly recommend any of the Essential series book by Hal Leonard. They have been edited and updated throughout the years to be far superior to any other book I have come across for learning an instrument.
