This is an amazing, beautiful, well made coloring book that will Captivate adults and Enchant all school aged boys and girls. Every single page is filled with artistic, intricately adorned birds, animals, butterflies or fish. Some adorned with flowers and leaves others with geometrical shapes and designs. On 5 pages animals have been duplicated without the adornments so you can add your own to create images that are uniquely yours. Some pages have flowers, trees, and leaves decorating the pages as well as adorning the animals. A perfect addition to your coloring library, or gift for adults, college students and school aged children that enjoy intricate coloring. My 8 year old grandson was here tonight when I received the book and he is so excited, as he turned the pages he started jumping up and down and it was Grandma I want to color the snake, the raccoon, the

deer, the bunny, the turtle, the rooster, in the end almost every page in the book. The cover picture is a collage of pictures in the book, not a picture that is actually in the book and I found many illustrations throughout the book that I like better than the sample images shown so I am going to add my favorites and a couple of my least favorite ones for you. 1. 88 pages to color, 16 2 page illustrations and 56 single page illustrations, printed front and back of each page, on heavy weight, white paper. 2. The patterns are very intricate and detailed so Colored pencils, or Fiskars Gel pens work well in this book, and all dark Fiskars colors that I tried did not bleed through the paper. 3. I am going to use Fiskars Gel Pens and Crayola Watercolor pencils then possible my Prismacolor color pencils. 4.
