Dragon Adventure: A Kaleidoscopia Coloring Book

Synopsis

Collected in this Dragon Adventure coloring book are 52 of Rachael's favorite dragon designs. She loved drawing every one, and she hopes that you will enjoy coloring them. The word dragon entered the English language in the early 13th century from Old French dragon, which in turn comes from Latin draconem (nominative draco) meaning "huge serpent, dragon," from the Greek word, drakon "serpent, giant seafish". The Greek and Latin term referred to any great serpent, not necessarily mythological, and this usage was also current in English up to the 18th century. - wikipedia.org Come Like us on Facebook and share your results! Customer Reviews

This coloring book is the perfect addition to my Teen grandchildren's coloring library. It is not always easy to find coloring books for my older grandsons. This book is just that, they love the dragons and the intricate patterns and designs keep them inspired, coloring and away from the TV. The cover picture is included in this book but is the most complicated, detailed image in the book. It is representative of the art style used on most of the dragons but most images are one or two dragons adorned in scales and details like the cover picture but do not cover the entire page, there are also a few simply outlined dragons and a couple silly dragon pictures. My book has 54 pictures not the 52 advertised and my grandchildren love the silly dragons. 1. 54 Dragon illustrations printed one per page (the back of each page is blank) on light weight bright white paper. 2. All

markers and some gel pens bleed through this paper, I just place a couple pages of paper under the page I am coloring to prevent damage to the next page.³ When I use colored pencils with this book, I place my chipboard clip board under the page to prevent indentations to the next page.⁴ All images are centered on each page and leave a 1/2 inch space between the image and the binding, this is plenty of room to easily color each entire picture and to remove an individual page from the book for coloring (I use a box cutter, ruler and cardboard under the page) or to cut off the entire binding leaving individual pages for students and other groups.⁵ Most of the images have small details so I use Colored pencils, Gel pens, or ultra fine markers for coloring In this book.⁶ I am adding images to help you decide if this book is just right for you.
